

Integrate Manager Workshop

Marteloscopes as outdoor learning sites – experiences so far and what next?

Date: 12 – 13.11.2020

Place: Eimeldingen G5, Germany

The Integrate Manager Workshop is organized by the European Forest Institute in cooperation with WSL. It will be held following the 'oForest Conference' which takes place from 09-11.11.2020. The workshop aims at bringing together the Integrate Network of Marteloscope Managers and other interested actors. Marteloscope sites are currently used for field training around the topics integrative, multifunctional forest management, forest ecosystem services and forest biodiversity, in research and as a tool for communication. To date more than 90 such sites have been established across 16 European countries – and their number continues to grow. The workshop will address the following themes:

- Exchange of experiences gained with Marteloscopes over the past years and where lie development potentials?
- How to effectively implement training and education for different target groups and topics in such sites?
- What are current applications and future options for using Marteloscopes in research?
- How to utilize Marteloscopes in fact-based communication?

This includes the collection of suggestions for additional training applications and needs for software tools and modules.

Thursday, 12 November 2020

- 08:00 – 08:30 Registration
- 08:30 – 11:00 The Integrate Marteloscope network – overview of activities
- 11:00 – 13:00 The use of Marteloscopes in research
- 13:00 – 17:00 Field trip to the Forest Enterprise Kandern and Marteloscope (including field lunch)
- 19:00 - ... Joint dinner

Friday, 13 November 2020

- 08:30 – 10:30 Marteloscope applications in education and training
- 10:30 – 12:30 Using Marteloscopes as a tool for communication
- 12:30 – 13:00 Wrap up
- 13:00 – ... Lunch (optional), Departure
